

Nemours Children's *Reading BrightStart! The Complete Program for Early Literacy Success: Level Two* is the only proactive early literacy program developed by a child health organization to improve reading and health outcomes for struggling or emergent readers beginning in the preschool years. The 36-lesson program puts educators at the forefront of early literacy best practices with an exciting multisensory approach to building foundational reading skills. The strategy-based design format provides educators with well-researched techniques and best practices that promote oral language, print awareness, fluency, phonological awareness, phonemic awareness, alphabet knowledge, phonics and developmental writing.
